Still Here When You Need Us

No matter how much time has passed, our commitment to your well-being remains the same. At The Balams Firm, every client we've helped is still part of our extended community—and we're always here if questions or needs arise.

In this edition, you'll find practical tips, firm updates, and real client stories to keep you informed and empowered. And if someone you know is facing a legal challenge, we'd be honored to help—just like we did for you.

Prevention in Action: Bicycle Awareness for Drivers

Bike safety isn't just for cyclists—it's a two-way street. Here are three things drivers often overlook:

1. It's illegal not to give cyclists enough space when passing. In Georgia, drivers are legally required to maintain a minimum of three feet of clearance when passing a bicycle
2. Most bike-related crashes happen at or near intersections
3. "Dooring" (opening your car door into a cyclist's path) is 100% preventable

Staying alert can prevent injuries—and save lives. **Let's make Georgia's roads safer for everyone.**

Support You Can Trust

Kind words from clients like Dale mean the world to us—but what matters most is the trust placed in our team during life's most difficult moments. If someone you know needs legal support after an accident, we'd be honored to stand by their side—just like we did for him.

Safety Tip: Back-to-School = Back to the Bus Stop

Each year, preventable tragedies happen because drivers aren't clear on one thing: when you have to stop for a school bus.

Quick refresher for Georgia drivers:

- 2-lane road (any direction) → ALL traffic must stop
- Multi-lane road with center turn lane → ALL traffic must stop
- Divided highway with grass or barrier → Only traffic behind the bus must stop

Don't risk a tragedy.
